It should give you an option to authenticate a different way either by phone or email. Do you see a button where you can click for another option? They added two factor authentication, so they have to verify one of three ways now. Let me know if you still have problems with it.

Hi Amy,

I don't have a Microsoft authenticator app. Is there a way to get past the code?

Sorry Faviola, we had a heck of time getting added as operators today, but I finally got it and added you. You should be good to access it tomorrow (Wednesday). Thanks.

Hi Faviola,

The only two people that are operators on the share folder are off today, so I will have them add me when they are back tomorrow. Sorry for the inconvenience. Thanks.
