Dear Pat,

I hope this email finds you well. This is Mike Gonzalez, I'm the new City Manager at the City of Sunnyside. Recently I've discovered that we are 4 million dollars in the red in our 2024 budget. This was mainly because the sale of city owned property was put into our general fund as positive cash flow. The concerning thing for me, is the lack of transparency of our Finance Director, who I let go on August 26th. She wasn't allowing departments to access their budget. She wasn't sharing proper reports with the City Council either.

To put things into perspective, our City Directors haven't had access to their budget in 6 months. Our Fire Chief hasn't had access to his budget in over a year. It appears that our Assistant Finance Director, wasn't properly trained by the former director.
I can't say that money is missing for sure, however, with everything I'm uncovering my suspicions are starting to grow.

I am requesting a forensic audit from the State of Washington. If this level of auditing isn't available, can you please tell me what is? I'm looking forward to talking with someone on your staff who can bring us some clarity. Because at the current moment, there isn't anyone who can say for sure what are budget numbers are. Please give me a call at your earliest convenience at 509-850-4748. Thanks a lot!

Regards,

Mike Gonzalez
Sunnyside City Manager
