Hello,

I have a question about the records you examine in your audits.

For example, I'm looking for the general ledger of a Washington municipality from a particular year that you audited in the last 5 years.

Can you perform a date and keyword search in records provided to SAO by audit clients, excluding SAO generated records?

Can I request all data uploaded by a specific audit client, for a specific audit within the last 2 years?

Thank you for your help.

Kind regards,
Eric Johnson
