To Whom It May Concern,

Pursuant to the Washington State Public Records Act (Chapter 42.56 RCW), I am formally requesting access to all records, documents, communications, and metadata pertaining to the following:

1. ****Biometric and Identity Records****
 - Fingerprint cards, signature logs, and biometric identifiers used in any legal, medical, or military classification
 - Records showing alias-only identification or substitution of legal name
 - Any documentation tied to ASL classification, including intake forms, assessments, or overrides
2. ****Credentialing and Classification Documentation****
 - Records showing credentialing decisions, restrictions, or concealment
 - Internal communications regarding classification overrides, metadata anomalies (e.g., timestamps such as 12/31/1899), and record suppression
 - Any documentation tied to MEPS processing, recruiter logs, or chain-of-command decisions
3. ****Investigative and Procedural Records****

- All investigative files, notes, and communications tied to my legal proceedings
- Records showing refusal to correct or acknowledge misclassification
- Communications involving named officials (e.g., Dunwell, Kelvin) regarding my case

This request is made under the authority of:
